EDUCATION

2018 - 2023

MARIST UNIVERSITY OF GDL

- Bachelor of Aerospace Engineering

SOFT SKILLS

- Troubleshooting
- Time Management
- Team Work
- Proactivity
- Effective Communication
- Critical Thinking

HARD SKILLS

- X12, EDIFACT, XML, JSON
- AS2, FTP/SFTP, HTTP/HTTPS, APIs
- Sterling Integrator, Lightwell, Azure
- Python/SQL/Javascript

LANGUAGES

- Spanish (Native)
- English (Professional)

PROFILE

Aerospace engineer with solid experience in **designing** and **implementing** EDI solutions for 3 years. Specialized in **optimizing processes and improving operational efficiency** through technologies for 4 years. Passionate about programming in Python for 7 years, with skills to develop innovative tools that **integrate technology**.

WORK EXPERIENCE

DSV International Shared Services

2021 - Present

EDI Support Specialist

- Implement, manage, and optimize processes that enable the efficient exchange of electronic documents between companies.
- Setting up EDI systems and resources to connect trading partners, as well as ensuring data flows seamlessly between platforms.
- Setting up communication protocols (like FTP/SFTP, APIs, etc.), as well as monitoring and troubleshooting data transfers.

Proximity Software

June 2021 - September 2021

Pega Developer

- Building scalable enterprise applications using the PEGA platform.
- Designing and configuring logic rules, decision flows, and business policies within PEGA.
- Performing unit and integration testing to ensure applications are working properly.

ACHIEVEMENTS

Thanks to my knowledge of EDI and Python, I was able to automate different standard processes, such as **automatic monitoring reports**, **creating packages for deploying resources** in production, **standard nomenclatures**, correctly **managing files** depending on their characteristics, and countless other projects.

PROGRAMMING LANGUAGES

Python

I've been programming on Python since 6 years old, with a strong foundations on automation

Courses

- *Complete software engineering course with Python*
- *The absolute beginners guide to information technology*
- *The complete guide to mastering Python in 2024*
